(8) Under the Bombay city Act the Cess is like so many per centum, not exceeding three, of the rateable value as will suffice for the special purpose of the tax, subject to a minimum of 4 as per months for any separate holding or building - It may be argued that the ~~none~~ proposed minimum corresponds with that for the Bombay city but the expenses of scavenging and ~~Supervising~~ the incidental charges relating thereto on the Kolar Gold Fields can not be so heavy as in Bombay city. The President states that the cost of the proposed establishment at a cost of Rs 106 per mensem will be less than the estimated receipts from the cess. The Health Officer reported that there are on the fields 1216 houses under occupation & that a sum of Rs 125 will be realized by levying 2as a month on every house hold. This sum it is submitted would be sufficient to cover all expenses including the collection charges:
